Summary: I've decided to take control of my future and lean into technology, focusing on front-end software development, particularly iOS development.

Technical Experience:

JudgeUs|Startup
June 2024 - Present
iOS Developer

- Developed and maintained iOS applications for JudgeUs, focusing on usability, performance, and scalability.
- Collaborated with designers and backend developers to implement new features and enhance existing ones.
- Utilized Swift, UIKit, and SwiftUI to create intuitive user interfaces and delightful user experiences.
- Implemented networking functionality to interact with RESTful APIs and handle JSON data.
- Conducted code reviews, wrote unit tests, and ensured code quality and reliability.

Home Depot| 2021 - 2024
Software Engineer

- Developed and maintained software solutions to optimize processes and improve efficiency within the organization.
- Collaborated with cross-functional teams to gather requirements, design, implement, and test software applications.
- Utilized expertise in various programming languages, including Java, JavaScript, Python, and Swift for iOS development.
- Implemented best practices for software engineering, including code reviews, testing, and documentation.
- Contributed to the continuous improvement of software development processes and methodologies.

Non-Technical Experience: Charter Communication/ Spectrum
Information Technology Specialist
December 2004 - October 2023

- Installed and maintained computer systems and networks, including peripheral devices.
- Set up computer workstations and configured software functions to optimize performance.
- Provided technical support via phone, chat, or in-person following company guidelines.

- Diagnosed and resolved computer problems, ensuring security and privacy of networks.
- Trained computer users and organized upgrades and maintenance schedules.

Education:

HarvardX|2023
Computer Science
Bachelor's Degree

CodePath.org|2024
iOS Development
Certificate

Harvard's CS50|2023
Python Certified

Skills:

- Bilingual Skills: Fluent in English and Spanish.
- Software Engineering:
- Proficient in Java, JavaScript, Python, C++, HTML, CSS.
- Certified in software engineering from Harvard University, 2023.
- Experienced with software development methodologies and best practices.
- iOS Development:
- Proficient in Swift, UIKit, SwiftUI, Xcode.
- Experienced with iOS app development.
- Strong understanding of mobile UI/UX principles.
- Familiarity with RESTful APIs and JSON.
- Version control with Git and GitHub.
- Excellent problem-solving and debugging skills.References:
